

**Table 1: Knox County Commission Districts
Estimated Population Deviation Under 19-Member Body**

District	Total Population	Absolute Deviation	Relative Deviation
1	38,915	-1,299	-3.23%
2	41,027	813	2.02%
3	41,647	1,433	3.56%
4	40,726	512	1.27%
5 ^a	61,178	857	1.42%
6	39,777	-437	-1.09%
7	41,551	1,337	3.32%
8	39,462	-752	-1.87%
9	37,749	-2,465	-6.13%
Total	382,032	Overall Range	9.69%
Ideal Population^b	20,107		

Date: 3/27/2009

Source: US Census Bureau 2000, PL 94-171 Block Level Demographics; MPC, 2009

Notes: ^aWith the exception of the 5th District, which elects three representatives, all Knox County Commission districts elect two representatives. The population deviation for the 5th District is representative of this distinction.

^bThe ideal population per Commissioner is computed by dividing the total population by the number of representatives. In this instance, dividing 382,032 by 19 yields an ideal population of 20,107 persons per Commissioner. Before deviation can be calculated, the ideal population must be multiplied by the number of Commissioners in the district.
